USDA RURAL DEVELOPMENT ANNOUNCES FEDERAL FUNDING FOR DALLAM-HARTLEY COUNTIES HOSPITAL DISTRICT

Amarillo, Texas, September 18, 2003-Bryan Daniel, State Director Texas USDA Rural Development announced today that the Dallam-Hartley Counties Hospital District received a \$2,339,000 loan through the Rural Utilities Service Community Facilities loan program. The effort is part of USDA's national program to help rural areas build and enhance essential community facilities.

"USDA Rural Development's Community Facilities program helps rural communities keep pace with the needs of their rising populations," said Daniel. "Rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

The loan funds will be used for the construction of an assisted living facility. The facility will serve the citizens of Dallam and Hartley counties, as well as residents in the surrounding areas. The facility will consist of 18 studio, 6 one bedroom, and 2 deluxe units which will compliment the existing facilities of the nursing home and hospital. The assisted living facility will be under the management of the hospital district's administrator who brings over 30 years of health care experience to the project.

USDA Rural Development finances health clinics, hospitals, libraries, rehabilitation centers, nursing homes, elder care and child care facilities, and emergency medical equipment such as ambulances in rural areas and cities of up to 20,000 in population. Funding may be used to construct or improve community facilities and may include the costs of land, equipment, and necessary professional fees. Loans and guarantees are available to public entities such as municipalities, counties, and special-purpose districts, as well as to nonprofit corporations and tribal governments.
